

cruise dining reimaged

with Dine My WaySM personalized dining

With the expansion of the MedallionClass[®] experience across our fleet, we're also pleased to share a completely new approach to dining. For the best selection, make reservations through the MedallionClass app before you sail. Choose the dining time each night or vary it by day; you can easily revise your reservations and make new ones while on board.

Perks for Platinum and Elite Guests: Exclusive Early Access

Platinum and Elite guests receive a world of benefits on Princess[®] cruises. Enjoy exclusive, early access to Dine My WaySM reservations you can make as soon as you book your cruise and place an initial deposit. You'll have first choice of times and locations and apply those perks to your entire travel party, even if not everyone is a Platinum or Elite guest.

New loyalty benefits also extend to other Princess experiences:

- 10% off Lotus Spa[®] treatments
- 10% off photo gallery offerings
- 50% off MedallionNet[®] Wi-Fi
- 10% off shore excursions for Elite members

Dine when you want.

Whether you're enjoying a meal in the main dining room or choosing a specialty restaurant for a nominal fee, you get to select what time to dine. Keep the same time every night and enjoy service from the same waitstaff. Or pick a different time each night, with the freedom to change your reservations based on what works for you.

Dine how you want.

Innovative technology means you can provide details about your dining preferences. Customize your food and drink orders and share any dietary needs. You can even request your preferred dining pace.

Dine with whom you want.

Let us know who is in your travel party, and you can change and edit those reservations.

Dine where you want.

Don't get up! With OceanNow[®] service on demand, you can have your favorite snacks, meals and beverages delivered almost anywhere in the ship at no charge. Craving a burger while watching Movies Under the Stars[®]? In the mood for a cocktail in the Piazza? Choosing is the only hard part.
