Dear passenger,
your vacation starts now and we hope with Ocean
Medallion will be more comfortable. Here we introduce
you some basic aspects so you can take full advantage
of your on board stay.

What's the Ocean Medallion?

It's a small device the size of a coin that will be given to you on your embarkation day. You must carry it with you and you will need it to access the ship, get in your stateroom or purchase items on board. It's a wearable device that you can carry on your pocket or as an accessory. It also has sensors to locate you around the ship, which allows the crew to give you a better and more personalized service, as well as locating other passengers.
